This is no boast, but EVERY WORD TRUE.

THE SENTINEL, having double the circulation IN THE CITY, and more than treble OUT OF IT, of any other paper here, renders it far the cheapest and most desirable medium in Milwaukee for all classes of Advertisements.

The Result in Wisconsin.

We have some additional details of the election in this State. The majority for LINCOLN will probably reach eighteen or twenty thousand. In the first Congressional District POTTER is re-elected by upwards of two thousand majority. In the second, HANCHETT must have nearly or quite ten thousand. In the third, SLOAN beats LARRABEE from two to three thousand. The Legislature is largely Republican. In short, the Badger State is *sound to the core!*

The Grand Result.

Our paper this morning, as on yesterday, is mainly filled with the details of Tuesday's election. In a day or two, we shall have spread all the figures before our readers. It is sufficient to say, for the present, that "Honest Old Abe" is elected President, and that THE UNION will stand, and and so may it stand forever!

The First Congressional District.

JOHN F. POTTER, the Republican candidate, is re-elected from this district by about the following majorities:

	Potter (R)	Arnold (Dem)
Milwaukee	2,100	maj.
Waukesha	450	—
Kenosha	725	—
Racine	1,000	—
Walworth	2,410	—
	4,575	2,100

POTTER's majority in the district about *twenty five hundred*. The official canvass may vary this a few votes, but there is no doubt that POTTER carries the district by over *two thousand* majority.

The Keystone State.

PENNSYLVANIA, the Keystone State in the arch of the Union, gives the small majority of *sixty-five thousand* for the *man of the West*, ABRAHAM LINCOLN. Of course, the Union is safe with this vote. The QUAKERS were out. See what they did!

GOOD FOR GREEN COUNTY.—The Monroe *Sentinel* brings us returns from all but three towns in Green county, LINCOLN having 1065 majority. Our Republican friends in Green county always give a good account of themselves.

RACINE COUNTY COMPLETE.—Racine county gives LINCOLN 879 majority. POTTER 1,034. UTLEY is elected to the Senate, and KNAPP, MONROE, BRADFORD and CHAPMAN—all Republicans—elected to the Assembly. Well done, Racine.

LOOKS AWFUL "BLUE."—We give such returns of the election as we have received, up to the hour of going to press. We confess the thing looks as "blue as a whetstone," and we have no heart to dilate on the subject. When we hear of the Democrats carrying anything, we will give our readers the benefit of the information.—Hurrah for Salt river!!!—*Madison Patriot (Dem.)*

THERE is trouble among the Catholics.—Dr. BROWNSON, in the October number of his Quarterly Review, discusses the power of the Pope, from a truly American standpoint. For this he is called to account by the official newspapers of Archbishop Hughes, the Archbishop of Baltimore and the Bishop of Buffalo. The Doctor will probably have to back down, but the sympathies of a large class of Catholic laymen are with him.

ACCIDENT TO BLONDIN.—While Blondin was performing on stilts at Troy, last Tuesday, he attempted to turn a summersault, but the crotch that sustained the rope suddenly gave way, and he fell amongst the seats and people below. He was considerably hurt by the fall, and one of his arms appeared to be partially paralyzed by contact with the hard substance of the back of a seat.

LIEUT. BARTLETT, father of the girl in the "Diamond Wedding," has fallen into contempt. A tradesman tried to collect a bill of him the other day, when he made an assault on the man and has been arrested for it.

JAMES FISH, of Winnecomb, Winnebago county, advertises a man by the name of Worthen, who ran away with his (Fish's) daughter. Worthen is said to have two wives living.

THE FOREIGN JOURNALS report that that M. Flotow, the composer of "Martha," is now busily engaged in writing another opera.

SECESSION.—The Southern fire-esters are preaching, and their Northern allies are encouraging, Secession from the Union, as the remedy for a defeat of their candidates at the ballot-box on Tuesday. Here is the way JOHN M. BOTTS of Virginia illustrates this sort of antidote for such a result of the free exercise of the right of popular suffrage as these politicians of the Mexican style do not like:

What would you think of some rich old farmer, who had a fine estate in co-partnership with somebody else. He had made a large crop of tobacco, had plenty of wheat in his barn, and corn very abundant—enough of this world's goods, in fact, to enable him to enjoy all that a luxurious appetite could desire—and he was suddenly to quit his estate, his family and his crops, and the next thing you heard of him he was down in Texas, and somebody asked him, "What induced you to run away and leave such a fine estate," and his reply should be, "Oh I had a partner who every morning came to the fence and shook his fist at me, and threatened to take my estate from me!"

A VOICE AGAINST DISUNION IN NORTH CAROLINA.—The Hon. R. F. MOORE, one of the leading men of North Carolina, in a letter *on the subject of disunion*, says:

"In any attempt to sunder the Union on account of slavery, I fear a deep agitation among ourselves. I fear that when the Disunionist, under the plea of protecting slavery, shall demand of the people to calculate the value of the Union, not a few of them, in the agony of their feelings, in the prospect of misery and the increase of their burdens, will be induced in the excitement of the times to retort and demand in turn the value of slavery."

Mr. Moore then goes on to argue that a separate Southern government would bring an eternal expense to North Carolina of at least three million of dollars; that this would prostrate every interest in the State, and "the result would be an emigration to some less burdened land, and a repudiation of every bond of the State." He says the States adjoining are a little abler to bear the expense in which the Disunionists would involve them as North Carolina is.

Douglas 181; Larrabee 184; Off, Sheriff, 132; Schausse, Register, 180; Francel, Clerk of Court, 168; Burns, Treasurer, 167, and a majority of 83 for Barber, rep., District Attorney. Prentiss, dem., is elected to the Assembly by 150 majority.

RUBICON, Dodge Co. Nov. 7th.

MESSRS. EDITORS:—I herewith send you the result of yesterday's election in this town:

The Republican Presidential Electors received eighty-three, A. Scott Sloan, eighty-eight, David N. Minor, for Assembly—eighty-eight majority.

The County Officers (Repub) received from eighty-four to ninety-two majority.

Thus have we achieved a glorious triumph for "*Freedom*" over *Slavery* in this town at least. If every town in the free States does as well as we have done, Freedom will certainly be the birth-right of every American citizen; and Slavery be held in check south of "Mason & Dixon's line."

We wait patiently for the news to come from other localities and States.

Yours for Freedom, A.

Departure of Steamers.

FOR TWO RIVERS,

The steamer *Huron* leaves Olmsted's dock, every evening at 5 o'clock, for Port Washington, Sheboygan, Manitowoc and Two Rivers.

FOR BUFFALO.

Screw steamers, with good accommodations, leave the different transportation docks every day, for Buffalo.

FOR OSWEGO AND OGDENSBURGH.

One of the Northern Transportation Co's screw steamers sails for the above ports every day, from the he Company's dock at the M. & Miss. R. R. depot, touching at nearly all intermediate ports.

FOR COLLINGWOOD.

The Collingwood Line of screw steamers leave semi-weekly from Dousman's dock, foot of East Water Street, connecting at Collingwood with the Northern Railway of Canada, for the East.

FOR GREEN BAY.

The screw steamer *Ogontz* makes weekly trips to the above port, starting from Olmsted's dock.

AN OUTRAGE THAT DIDN'T WORK.—Yesterday the Third Ward was short one inspector, on account of the death of the lamented Frank McCormick. Mr. Kellogg, Secretary of the Wisconsin Life Insurance Co., was appointed by the people to act as such inspector, and entered the room where the polls were held to officiate. Ald. Crilly told him that he could *not remain there*, and on Mr. Kellogg assuring him that it was his intention to remain there and act as inspector, inasmuch as he had been elected for that purpose, Ald. Crilly commenced pulling off his coat and said "he'd be d—d if he should remain."

To avoid trouble with any one manifesting such a disposition as Ald. Crilley did, Mr. Kellogg left, and *afterwards his case* was stated to the Mayor, when the latter promptly ordered Chief Beck to go with Mr. Kellogg and see that he was permitted to act as inspector. Chief Beck did so, and Mr. Kellogg had no farther trouble. However, there had been some votes polled when he was admitted, and it may be possible that such high-handed proceedings will have their just retaliation, in the *entire* vote of the Ward being thrown out as illegal. The law is plain on the subject, and it may be done. Ald. Crilly was altogether too hasty, and he ought to know that such a course always acts as a boomerang upon the person adopting it—it comes back and hurts him more than anybody else.—*Wisconsin of yesterday.*

There is no doubt that the vote of the Third Ward can be *thrown out*, as illegal, in consequence of the action of Messrs. CRILLEY and O'BRIEN, at the opening of the polls. What they did, however, was through ignorance of the law, which they ought to have known.

THE OLD AND THE NEW.—We have hung up before us a couple of very fine Photographs, representing the Columbian Brewery of Messrs. SANDS. The first is that of a group of sheds constructed of slabs and whitewashed. This was the institution in 1855. The second picture represents the large and magnificent Columbian Brewery of 1860, one of the finest structures for manufacturing purposes in the city of Chicago SANDS have a very large brewery in this city and are constantly making large amounts of their celebrated Ale to be sent all over the country.

A GREAT WORK OF ART.—SAMUEL B. WAUGH has made himself very popular as an artist. Several executions of his are magnificent. But the most beautiful of all h is productions is the Mirror of Italy. This series of paintings is beautiful beyond description. It is very fortunate that our citizens have now a chance to see them.—They are at the Academy of Music for this week and no longer. We trust our readers will avail themselves of the opportunity they now have to see the Mirror. This exhibition will open to-night at half-past seven o'clock. Let every one go and see it.

THERE WAS CONSIDERABLE trouble at the Sixth Ward polls on Tuesday. Mr. McGEOCH, of the firm of VAN KIRK & McGEOCH, being called upon by a Deputy Sheriff to assist in arresting a man at the Sixth Ward polls yesterday, was set upon by about fifty drunken rowdies, with clubs and knives, and but for the fact that McGEOCH succeeded in outrunning the drunken crew, he would doubtless have been severely injured. They followed him nearly to his office at the La Crosse depot.

DOUGLAS FLAG SPLIT.—The handsome Douglas flag which our neighbors of the *News* have had strung across the street during the campaign, and which has withstood the bulletings of the elements remarkably well, yesterday morning, on being strung across the street, to keep up the sinking courage of the democracy, was rent in twain by the first gust of wind that came sweeping across the Lake—literally split from bottom to top—and was hauled off the course in a badly damaged state.

THE AGE OF WOOD.—After wooden nutmegs, wooden clocks, and wooden campaign medals, we can be surprised at nothing that comes from Connecticut. The last novelty is a wooden slate (a contradiction in its name.) To speak more plainly, it is made of wood for boys and girls to write upon.—Its characteristics are extreme lightness and durability, and it cannot be broken. Goodrich & Johnson are the only persons who sell this artiale in Milwaukee.

THE LA CROSSE UNION & DEMOCRAT, which was staked on this State's going for DOUGLAS—and which sheet did more than any other in that county to elect RETHERT—may now subside; we have heard enough of the Slogan.

THE FAIR for the benefit of St. Rose's Orphan Asylum, will take place on the 27th and 28th of November, at Albany Hall.

NOVEMBER TERM.—The Grand Jury for the November term of the Municipal Court, was called and sworn yesterday morning. ANDREW MITCHELL was appointed foreman.

MESSRS. CARLISLE & STAUGHTON have opened their new store just over the Spring Street Bridge, adjoining the Chamber of Commerce. They have the largest house furnishing stock in town.

THERE is quite a run on the hat stores. The election of LINCOLN will be worth a small homestead to Uncle Ben, if the Democrats pay all their bets.

NOW THAT THE POLITICAL sensation is past, and Old Abe is elected, people will begin to think of the approaching holidays. The store keepers are already ordering their Christmas stocks.

THE *Chicago Journal* says *fifty-five* young ladies took the white veil in this city on the 8th, at the Convent of the Sisters of Notre Dame.

PROCLAMATION.

THANKSGIVING.

It is right that all Christian nations should praise the Ruler of the Universe for His wonderful goodness to the children of men.

It is eminently proper that the people of this country should praise Him, for they are favored above all others, in their form of government, devised, under God, by the wisdom of their forefathers—in freedom to do all things that are right—in health, peace, prosperity—in a wonderful process of development which has already placed them in the foremost rank of the nations of the world.

The people of Wisconsin have extraordinary reasons for thankfulness the present year. The peaceful labors of the husbandmen have been blessed in a most remarkable degree, and their barns and storehouses are overflowing with the abundance of the harvest.—Surely, "He fadeth them with the finest of the wheat," Health has prevailed throughout our borders. Good order has everywhere reigned. The blessings of free education have been extended. All classes and professions have pursued their avocations with greater or less measure of success, under the protection of just and equal laws. If afflictions have come upon, or calamities overtaken us, the benign influences of Christian benevolence have hastened to dry the tears and minister to the wants of the bereaved.

Following time-honored custom, it is my privilege again to invite the people of Wisconsin to the observance of their annual festival of joy and gladness, and I do hereby appoint THURSDAY, the 29th day of November, 1860, as a day of THANKSGIVING and praise to the Almighty Ruler of the Universe.

And I recommend that the people of the State, on that day, laying aside the cares of life, gather together in their solemn assemblies, and, in manner and form approved by their consciences, return their thanks to God for His great goodness to us as citizens of a country blest, beyond others, with civil and religious Liberty, Educational Institutions, Peace and Prosperity; and especially for His overflowing blessings to the people of this Commonwealth, in Abundant Harvests, Health, Social Comforts and Privileges, and for all that contributes to their happiness and well-being as communities and individuals.

"Enter into His gates with thanksgiving, and into His courts with praise; be thankful unto him and bless His name."

When the feast is spread, and the tables groan with fatness, let not the poor be forgotten, nor any man found begging bread.

In witness whereof, I have hereunto subscribed my name, and caused the great seal of the State to be affixed. [L. S.

Done at Madison, the 29th day of October, A. D. 1860.

Milwaukee City.

We had barely space, yesterday morning, to allude to the good fight made and the substantial victory achieved by the faithful and untiring Republicans of this city at the election on Tuesday. Figures, in this case, are more eloquent than words; and therefore we content ourselves with giving a comparative table of the majorities in the several Wards of this city in 1856 and now:

Wards.	1856		1860	
First Ward,	329	Dem.	164	Dem.
Second Ward,	706	"	260	"
Third Ward,	550	"	377	"
Fourth Ward,	85	"	46	Rep.
Fifth & Eighth Wards,	959	"	135	"
Sixth & Ninth Wards,	980	"	581	Dem.
Seventh Ward,	102	"	46	Rep.
	3,267		995	

Four years ago the Democrats carried the city for BUCHANAN by 3,367 majority. Now they get 995 for DOUGLAS, a Republican gain of *two thousand three hundred and sixty-one votes* since 1856. Can any city, or county in the State show a more satisfactory result?

The BANNER WARD is the old Sixth—now the Sixth and Ninth—where the Republican gain since '56 is *five hundred and eighty-nine*.

A TRAIN OF CARS with a hundred and fifty passengers, on the New Orleans, Jackson and Great Northern Railway, were overtaken about thirty miles from New Orleans, by a terrible storm which swelled the waters of the lake so as to overflow the track, and completely surround the train. The track before and behind was washed away; the water rose to the bottom of the cars, and logs and drift wood were hurled against them with terrible force. The passengers remained in this terrible situation two nights and a day, with nothing to eat but a few chickens found on board, which were cooked without condiments, and eaten without bread.—A train sent to their relief could approach no nearer than three miles, to which the distressed people, after considerable difficulty were transferred, worn out with hunger, thirst and fatigue, but thankful for their timely deliverance.

MAKING THE MOST OF A MODERATE SALARY.—Within a short time past, says the Chicago *Tribune*, a young man named JOSEPH NASH, Freight Agent of the Michigan Southern Railroad in this city, has found a pressing call for his presence elsewhere, and has left his relations to the company under a cloud, of which enough is known to indicate that from $17,000 to $20,000 has go transferred to the wrong side of the column. Mr. NASH has had a salary of $100 per month, enough to live on in a quiet way. He has managed, however, to make the sum of $1,200 per annum go a great way, and over very much surface. He was what is called fast, and that, in a city, costs money.

AN OFFICER NOT TO FIRE AT AN ESCAPING PRISONER.—The mayor of Philadelphia has suspended officer McMorris, who, in firing at an escaping prisoner on Wednesday night, as already reported in the *North American*, shot a little child in the neck.—The child, whose name is May Hyde, is not doing well. The ball, at last accounts, had not been extracted. In the case of Cunningham, who fired upon a prisoner, the Court decided th at an officer was only justified in firing upon a prisoner when his own life was imperilled. The name of the prisoner who attempted to escape was Robert McIlhenny.

A NOBLE BOY.—Mr. JONATHAN TAMER, of New Bedford, lost his pocket book, containing some money and valuable papers, Tuesday, and visited a Bank of that city shortly after, found a lad named JOHN BRAWLEY, 15 years old, who had picked up the pocket book and gone there to give notice of it. Mr. TAYLOR offered the boy a handsome reward, but he declined to receive it, remarking that he could afford to be honest without being rewarded.

THANKSGIVING.—Thanksgiving proclamations, though always pleasant to contemplate, are usually formal in text. That of Gov. BANKS, of Massachusetts, however, is really fresh and original of its kind. Mark the cadence of the litany, which rises and falls in every sentence:

"For the favored position which separates our beloved country from the political complications that torture other nations, and secures to us well regulated liberty and universal peace;

For the preservation of the States united;

For the public health and prosperity;

For the rich harvests of the year;

For the privilege of general education;

For the capacity and hope of future improvement;

And the never failing consolations of Christian faith;

Let us remember, in every act of thanksgiving for our inappreciable privileges, the opportunities that are offered;

For the relief of those in want;

The succour of the oppressed;

The consolation of the afflicted;

The comfort of the imprisoned;

The encouragement of such as are cast down;

And the recognition of all men of whatever caste, condition or clime, as children of a common Father, and subjects of one universal and incomprehensible destiny.

"ICH DIEN."—Those mysterious words, *Ich Dien*, (and which indicates an itch for dining,) appeared at the head of the bill of fare for the Boston Ball, but would have done better for the noon meal. As the motto of George IV., who spent his life in dining, they were appropriate. The best of it is, nobody knows what the true translation is, but as they are at times translated, "I serve," it was considered a very fair hit for the waiters, who handed the bill to the guests, on the above occasion.

Trade and Tonnage of the Lakes.

From the New York World.

The immense amount of surplus produce which the Northwest is now forwarding to the Eastern markets, and the consequent increased transportation of return merchandize, has given new life, activity and importance to the tonnage of the great lakes. Not less than $600,000,000 of property will be transported, both ways, over this national highway in the twelve months next following the first of last August. This is a trade greater than the entire foreign commerce of the United States, and serves to give us enlarged ideas of the extent of our country, and the magnitude of its internal commerce.

The chain of inland lakes upon which this vast trade is carried on, is the longest on the globe. The territory drained by them has an area of over 500,000 square miles, of the most populous and productive lands in the Union. The extent of these great waters is as follows:

	Length in miles.	Breadth in miles.	Area, sq. miles.
Lake Superior	420	160	32,000
" Michigan	320	100	22,000
" Huron	270	160	20,400
" St. Clair	25	20	300
" Erie	250	80	2,000
" Ontario	190	40	6,300
Total	1,475		90,000

The tonnage of the lakes is now about 450,000 tons, valued at about $20,000,000, and is divided among the several classes as follows:

	Number.	Value.
Steamers	150	$4,500,000
Propellers	200	5,000,000
Barks	60	800,000
Brigs	100	1,000,000
Schooners	1,000	8,500,000
Total	1,510	$19,800,000

From the fall of 1857 to June last, this large amount of marine propety, together with vast interests in warehouses, docks and canal boats, gradually declined in value. The total value of the lake marine was not to exceed $14,000,000 or $15,000,000.—Warehouses could be bought at large discounts upon the original cost. Canal boats rotted on the banks, or were sunk and deserted. Freights had run down to 8c5 cents per bushel on wheat from Lake Michigan ports to Buffalo, and from hence to New York in proportion. From New York to Liverpool, in April last, only 5d61 could be obtained for wheat. Vessels went begging all over the world. From the great lakes, some twenty vessels went into the ocean trade. Steam-tugs went from Lake Michigan to New Orleans and Galveston in search of employment or purchasers.

Instead of an increased tonnage in 1859, for the country, of 500,000 tons as usual, the increase fell off to 150,000 tons. And in place of the usual annual increase of 50,000 tons on the lakes, not 8,000 tons were added, or only half enough to cover the loss by destruction at sea. Nearly all the great transportation companies of the lakes were compelled to suspend, and the marine property was either bid in at nominal sums, or sold at ruinous prices. Vessel owners were the most pitiable of property holders, and their propellers and schooners rocked lazily against the deserted docks of the harbors. Two splendid propellers that cost $100,000, were bought last June by the New York Central Railroad Company for $50,000, and this is a fair criterion of hundreds of transactions in vessel property—from last January to July. Fast sailing schooners (A No. 1) of 20,000 bushels capacity, sold for $7,000 and $8,000, which cost one or two years before, one dollar a bushel to build.

The immediate down-fall of the lake marine, was the small crops, and a severe railroad competition. But the great crop of 1860 at home, and the short crop abroad, has changed the fortunes of the shipping interest of the country, as much, perhaps, as of any business in the land. In New York vessels may readily get 12d.a13d. for wheat to Liverpool, and 500,000 bushels per week at that. From Chicago and Milwaukee, ever since harvest, vessels have had more than they could do at 16s a20s. per bushel for wheat to Buffalo. From Buffalo to New York, the price is 18c a20c. per bushel, and the tolls to the State have increased beyond all precedent.

This almost miraculous turn in the tide of marine tonnage, and consequent increased values, has made the fortunes of thousands of vessel owners throughout the country, and particularly of the great lakes. Vessels bought in June, have already paid for themselves in many cases. Before the close of navigation, the grain fluts of these great waters will have cleared a sum equal to their entire nominal value in June last. It is a small estimate to say, that the increased value of the entire lake tonnage is not less than $10 per ton, or $4,500,000.

In connection with this great increase in the values of shipping, and closely allied to it, is the warehouse property of the lake ports. Notwithstanding the great incentive to unusual activity, the vessels will leave half the surplus crop in the Northwest at the close of navigation, December 1st. For four months this will be brought forward to the lake ports, at Cleveland, Toledo, Detroit, Milwaukee, and Chicago, *for storage*. As the warehouse capacities of these ports is insufficient for the probable winter receipts, storage is now talked up to almost fabulous rates, and will, unquestionably, yield a handsome income to the owners. Also, in this connection, the ship building will again be renewed, not only on the lakes, but throughout the country. As a large portion of this work is done in winter months, it adds to the business of the locality where performed, at a season when most needed. The tonnage to be built at the different lake ports the coming season, will reach 50,000, valued at $2,500,000.

We might continue to enumerate the various interests of the country, which have been favorably effected by the recent advance in marine property, until we had exhausted most of the employments of capital and labor. In the great crash of '57, no branch of American enterprise and property went to a more ruinous level than the mercantile marine, and it is gratifying that in the recovery no interest goes higher in the scale of prosperity. There is a poetical and practical justice that "they who go down to the sea in ships, that do business in great waters," should receive an ample compensation for the risks and perils of lake and ocean navigation.

A FATHER ACCIDENTALLY SHOOTS HIS DAUGHTER.—A most heart rending accident occurred at Norfolk, Va., on Wednesday evening. Mr. Jesse T. Newell went home from business about sunset, and finding his little son playing in the yard with a pistol, not supposed to be loaded, took it from him, and, while examining it, it was accidentally discharged. Laura, (Mr. Newell's daughter) a beautiful and interesting little girl of nine summers, was seated on the step getting her lesson, when the pistol went off, and, instantly jumping up, she exclaimed: "Oh, pa, you have killed me!" As she said this, the blood burst from her nose and mouth. She fell forward and instantly expired. The pistol had been charged with two buckshot, both of which had entered her right breast and perforated her right lung. The great shock, together with the internal hemorrhage, produced almost instant death. Drs. Galt and Bright were almost instantly called, and reached the scene of casualty in a very short time, but too late. The little girl had breathed her last, and a worthy family were overwhelmed with grief. The unhappy father, almost bereft of reason by the distressing and heartrending accident, sought, in his frenzy, to take his own life. He seized a knife, and made a desperate effort to cut his throat, but was prevented from steeping his family in still deeper grief by some of his friends.

HUNG FOR THE NINTEENTH TIME.—A Western Missouri cotemporary tells the following:

"On Tuesday last, news came to this city that a man was seen hanging between Independence and Maxwell's Landing. The Coroner was promptly notified of the fact, and he, in the discharge of his duty, as promptly repaired to the scene; but, to his surprise found the man *alive*, kicking and walking about as other men do, with no rope around his neck—where the rope ought to be. He (the Coroner) made some inquiries about his victim, and the old woman—that is, Mrs. Ellicott, the wife of the hung man—replied that he was down, but not dead; and further remarked that it was about the 19th time he had attempted to hang himself and hadn't yet succeeded, but she'd be testotally darned if he mightn't hang the next time until he was dead; that she would never cut the cord again to let him breathe easy. We understand that Ellicott is in the habit of hanging himself every time he has a family jar, and although he has made so many attempts has never yet got without sight of the house, where his wife would never fail to let him down before his wind shortened."

ONE WAY TO ESCAPE A LECTURE.—One night, after having kept up their frolic until a late hour, the Col. came home somewhat "mellow," when he found his wife waiting for him with a countenance that foretold a storm. The colonel, whose face had never blanched before an enemy, quailed before the just indignation of his better half. Instead of going to bed, he took a seat, and resting his elbows upon his knees, with his face in his hands, seemed to be completely absorbed in grief, sighing heavily and uttering such exclamations as "Poor Smith! poor fellow!" His wife kept silent as long as possible, but at last overcome by curiosity and anxiety, inquired in a sharp tone—

"What's the matter with Smith?"

"Ah!" said the Colonel, "his wife is giving him fits just now."

Mrs. Jones was mollified by the joke, and her wrath dissolved."

Frightful Accident—One Hundred and Fifty Lives Lost.

Correspondence of the N. Y. Herald.

PANAMA, Oct. 25

Yesterday a most frightful accident occurred in the dry dock at San Lorenzo, involving the entire loss of the Peruvian frigate Callao (Auparimac), and almost the entire destruction of the dock, and a fearful loss of life. The particulars of this lamentable affair are as far as I can gather, as follows: It having been deemed advisable to dock the ship, in order to examine her copper and other trifling things, the engineer of the dock was asked if she could be taken on with her battery, provisions, and crew on board. His opinion was that the dock could not raise her with that weight; consequently, her guns were landed, yards sent down, and topgallant masts struck, retaining her provisions, magazines, and crew on board, and in this state she entered the dock, at half past ten A. M. There was a very large concourse of persons went over to witness the operation.

The government steamer Ucayati conveyed the President, Minister of War, and a large number of invited guests. Upon the arrival of the President, the vessel began to enter the dock, and was soon placed in proper position; the pumps were set to work; everything up to the present moment went well. The keel of the frigate took the chocks of the platform, and she began to ascend out of the water. After some time, the engineer noticed that the after sections of the dock were rising much quicker than the forward ones, the extra weight of her anchors and chains being the cause of this. As soon as the sections were again level, all the pumps were again started, and presently four of the upright stanchions of the dock broke; this was, however, deemed of no importance, as every thing else was going on well, and the frigate coming out of the water.

She was now out about six feet above her bearing, her keel in the chocks (the Callao has a deep keel and a very flat floor), but, owing to her great depth of keel, the chocks did not act as any support whatever on her bilge; therefore, the ship was simply balanced upon her keel, and so long as she could be kept steady in that position she was safe; but her crew was on board, constantly moving from one side to the other; the ship being already topheavy, this caused her to give one or two slight rolls, and then she pitched over on her starboard beams; at the second surge the three masts snapped about halfway up from the deck; her starboard ports being open she rapidly filled with water, and here began a scene of horror impossible to describe. The water was filled with men and women, wounded, dying, all screaming for help. Boats were promptly sent to their assistance, or the loss of life would have been still more fearful. Of the number that were below at the time very few escaped and their cries for help were terrible; but that which was most heartrending was the poor sick in the hospital, who, helpless with disease, could do naught but scream for that help that none could render them.

Up to the present time of writing, it is not known how many have been lost, but it cannot fall short of one hundred and fifty. The wounded that could be removed, who did not require amputation, were brought over to Callao, the rest remaining on the island. The number of broken heads, arms and legs is great. Capt. Kerr, of the English ship Goleonda, lowered his boats and did good service in saving some thirty or forty lives. The Callao was a fine 44 gun frigate, and was built in Blackwall, England, by Messrs Green & William, and she was a splendid specimen of naval architecture. She is about six years old. The vessel is a total loss, being entirely under water; the dock may also be considered as done for, it having failed as a commercial speculation, and the present disaster may be considered as the last of the Callao dry dock.

A DISCOVERY.—A discovery of considerable importance for France, and the world in general, has been recently made by a young man, M. Felix Chavin, at Lyons.—It is well known that the base of green color which is employed so extensively in the arts and in the most common articles of domestic use, is an active mineral poison. The Chinese have long been in possession of the secret of the manufacture of a vegetable green, which they call *lo-kao*, and the chamber of commerce of Lyons, in order to encourage the search for a similar coloring matter in the botanical domain of France, offered a considerable prize which, has just been awarded to M. Chavin, whose coloring matter, they have decided, is of the same nature as the *lo-kao*, and that it will produce as brilliant and solid a green as that does.—The plant from which M. Chavin has succeeded in making his extract is the *purgative ner prun*, which he classed, by Linnæus, as *Rhamnus catharticus*, and belongs to the family of *Pentandrie monogyne*, all which in the vernacular, the translation into which certainly renders its name much simpler, is "buckthorn." The cost of this newly discovered material furnished to the dyers is a hundred *francs* the kilogramme, or between nine and ten dollars the English pound.—*Paris cor. N. Y. World.*

A NEW CONSTITUTION FOR AUSTRIA.—The Paris *Pays* contains the following important news:

"We are informed in a manner almost certain that the Austrian Government has resolved to effect serious reforms in its triple system—political, financial and administrative. The Emperor, well advised by the Archduke Maximilian, whose liberal sentiments are well known, and also by old councillors of the Empire, from whom he was estranged before and during the last Italian war, has caused a constitution to be prepared, which we are assured has for its basis the elective principle with all the consequences flowing therefrom. It is thought that the Emperor will promulgate this Constitution shortly after the Warsaw meeting, without, however, the realization of this great political act being in any way connected with the results of that interview."

HON. JOSIAH QUINCY will attain, if he lives, his ninetieth birthday in February next. He was the guest of John Hancock at a brilliant dinner party. He has been the associate of all the master minds who formed the Republic. He was a subject of the crown at his birth, and lived to see the struggles of the Revolution—the creation of an empire. He is to-day the most interesting man in the nation—by association and by personal worth, and by the possession of a vigorous intellect in that day of life when to the mass of mankind the light of the brain has set.

PRESENTATION OF BILLIARD CUES.—Kavanaugh and Tieman, having triumphed over all competitors in the recent billiard tournament, were yesterday presented with the prizes awarded to their skill. Mr. Kavanaugh was the recipient of a gold mounted cue given by Michael Phelan, and Mr. Tieman of one with with which Mr. Berger, the French billiard champion, has won a portion of his laurels. The presentation was made by Mr. Geo. Wilkes, of *Wilkes Spirit of the Times*, at Mr. Phelan's rooms, corner of Tenth street and Broadway, in the presence of a large number of spectators.—*N. Y. Tribune*, 3d.

CLEARANCE OF AN ALLEGED SLAVER.—The bark Romulus recently arrived in Cold Spring harbor, where, it is alleged, she fitted for sea in an unusual manner, her lower hold being filled with casks of water. She was also visited at night by steam tugs from this city, which delivered articles or passengers on board. On Wednesday night she hauled into the Sound, when a steaming took her in tow and she proceeded to sea. From the suspicious manner in which the cargo was taken on board, and other circumstances, it is supposed that the vessel is intended for the slave trade.—*N. Y. Com. Adv.*, 3d.

THORLEY'S FOOD FOR CATTLE.

THE QUESTION AT ISSUE: A CONDIMENT OR NO CONDIMENT? First—Is a saving of $1,50 per week in the food of a horse with better health, less coughing, and more wind, worth fourteen cents of Thorley's food for Cattle, costing only forty-two cents? Second—Is an increase of six quarts of milk per daily per Cow worth two cents of Thorley's Food for Cattle, costing but six cents? Third—Is a corresponding fresh gain of on Sheep, Hogs, and Young Stock worth a penny, weekly, corresponding small outlays of Thorley's Food for Cattle? These are the grand questions of the day, and in all of them Thorley's condiment return him an affirmative answer to the first, yes to the second, yes! to the third, yes! A pamphlet showing this and a profit of from 100 to 500 per cent on the use of Thorley's Condiment, will be sent free by post on application. THE RAILROAD WAR!

Judge Miller vs. the Supreme Court!

CAN'T FIGHT ON AN EMPTY STOMACH.

THE PRESS ON THOMSON'S EATING HOUSE.

THE POPULAR EATING HOUSE, AND at the best known one all over the State is Thomson's, at Hartford, on the La Crosse Railroad. We don't know where a better lunch can be had at a more reasonable price. A quarter, and Thomson himself, is worth more to look at, in these hard times, than a week's board at an ordinary hotel.—*Green Bay Advocate.*

We were informed that travelers on the Milwaukee & Mississippi are unanimous in their expressions of delight at Thomson's "Junction Coffee House," and well they may be. Thomson is one of those fellows who, to appreciate, must be known, and the best way to know him is to stop and try his viands. He generally keeps the best, as the North-West will testify.—*Milton Junction Standard.*

HARTFORD COFFEE HOUSE.—People traveling upon the Milwaukee & Mississippi R. R., are invited to stop into Thomson's Coffee House, at Hartford, and get a biscuit, a couple of regular "Shining Mud" cups of coffee, and piece of pie, for a great deal more than the "quarter" they have to pay for all these eatables. Thomson keeps everything in nice order, and is always glad to see his friends.—*Portage City Record.*

THOMSON'S EATING HOUSE, HARTFORD.—The Kilbourn City *Mirror* says that is true in the following: "Just the place for breakfast or dinner when you're going to Milwaukee. We tried it one day last week, and, good as the dinner was, we are going to give the proprietor a puff worth three of it. To tell it in short, the fried biscuit, the fried cakes, the eggs, the pound cake, the butter, the pie, the coffee, and all the other nice things couldn't be beat in this State, or any of the other thirty-two that form this American Union—and all for the trifling sum of twenty-five cents."—*Daily Wisconsin.*

THE HARTFORD COFFEE HOUSE.—We have always noticed that travelers on the Milwaukee & Mississippi railroad are anxious for the train upon which they are riding to arrive at Hartford Junction. The reason is now plainly evident to us, since we have ascertained that Thomson has a Coffee House there, where that fragrant beverage can be obtained in all its strength, richness and aromatic flavor, and where all the necessary accompaniments Thomson knows well how to do the thing up, and always succeeds in pleasing his customers; hence the reason he enjoys so large a run of custom.—*Milwaukee News.*

THOMSON'S EATING HOUSE.—At Hartford, on the La Crosse and Milwaukee R. R., is the jolliest, best-natured, broadest faced, loudest laughing, best feeling, coolest tailing man in the business. His name is Thomson. He dishes pies and cakes and boiled hen fruits, and doughnuts, and clear coffee, and chickens, and lots of such stuff, to the hungry passengers. He says he can get a meal for just two shillings, and he will cuff to pieces at Thomson's anyone that dare to prolong his life, or to enjoy the luxuries of this world.—*La Crosse Union & Democrat.*

Special Notices.

THE NEW AMERICAN WATCH!
Made at Waltham, Mass.

IN ORDER TO MEET THE REQUIREMENTS of gentlemen who prefer a thinner Watch than those usually made by us, we have lately issued a new style of Watch on the three-quarter plate model, especially designed for this purpose.

In establishing this new series, it has also been our design to produce a Watch in every way superior to the best and highest-priced products of the most reputable of English and Swiss manufacturers; and no labor or expense has been spared to this end.

In all respects of fine and durable material, of external and internal finish, of accurate compensation and adjustment, of mathematically just proportions, and of *practical results*, our new three-quarter plate Watch challenges comparison with any in the world.

The following named gentlemen may be referred to in relation to these Watches:

Hon. Hannibal Hamlin, Me., John G. Saxe, Vermont.
N. P. Willis, New York, Hon. N. P. Banks, Mass.
Horace Greeley, Frank Leslie,
Cyrus W. Field, New York, Wm. H. Gary, N. York,
Fan. Murphy, New Orleans, Norman Wiard, Wis.
Dr. J. Marion Sims, Prof. Bartlett, West Pt.
Lieut. H. A. Wise, U.S.N., Col. W. J. Hardee, U.S.A.
S. I. Prime, D.D., Wh't Ell's, Wilson G. Hunt, N. York,
Gen. G. P. Morris, N. York, Peter Cooper, N. York.

CAUTION.—The Waltham Watch is now extensively counterfeited by foreign manufacturers, we have to inform the public that no watch is of our production which is unaccompanied by a certificate of genuineness, bearing the number of the watch, and signed by our Treasurer, E. E. Robbins, or by our predecessors, Appleton, Tracy & Co.

As these watches are for sale by jewelers generally throughout the Union, the American Watch Company do not solicit orders for single watches.

Boots and Shoes,
60 LAKE STREET, CHICAGO 60.

WE OWN THE EXCLUSIVE RIGHT for the sale of *MITCHELL'S PATENT METALLIC TIPPED BOOTS AND SHOES*, for and within the States of Wisconsin, Iowa and Minnesota, and hereby give notice that all parties dealing in these goods within the above States, without having first arranged with us and by our consent, are and will be directly prosecuted upon our EXCLUSIVE rights, and that as soon as we are advised of any infringement, shall demand proper and immediate redress.

We have made extensive arrangements with the *most celebrated manufacturers*, whereby we can fully supply the increasing demand with the best qualities of these Tipped Boots and Shoes from our store in Chicago, each pair of which will be stamped and labeled with our name.

We shall recognize no Tipped goods within either the above States, but such are thus stamped and supplied by us.

We will warrant in all instances one pair of child's copper-tipped Shoes to last longer and wear and withstand three or four pairs of equal quality without clips, as can be shown by very many testimonials, while the expense is but a trifling matter, making an immense saving to the consumer of nearly two hundred per cent.

Merchants and dealers in Boots and Shoes within the above States, can also find these Metallic Tipped Boots and Shoes, supplied and properly stamped by Wadsworth & Wells, for sale by AT'WOOD, STERLE & WHITE, and BRADLEY & METCALF, Milwaukee.

The receipts of wheat to-day were 67,389, and the shipments 93,302 bus. The receipts at Chicago, it will be noticed, continue light, amounting yesterday to only 47,548 bus. Some trifling sales were made early today at the decline established yesterday, but late the market improved 1c, closing on 'Change with a fair enquiry at 86c for No. 1 spring in store, and 84c for No. 2. The sales amounted to about 40,000 bus, at 85 @86c for No. 1 in store, 96c delivered in bags; 83@ 84c for No. 2 in store; 78@80c for rejected do, and and 90c for Extra club delivered. Freights underwent another decline of ¼@1c. The engagements reported were: schr. *Exchange* to Oswego at 17c; schr. *Bichol Mott* and bark *De Soto* to Buffalo at 12½c. On 'Change, we understand vessels were offered at 12c to Buffalo. One or two large dealers have expressed the intention not to ship any more this season, and are for the present out of the market, but will in the course of a few days shape their purchases to hold until spring. The transactions in flour were confined to about 800 bbls at $3 for country superfine, and $4,25 for good country Extra.

After 'Change the improvement in wheat was lost sub sequent advices from the east being less favorable than those first received, and the market closed dull at 85c for No. 1 Spring in store. Freights were dull but nominally unchanged.

PASSED DETROIT.

The following is a list of vessels that passed Detroit Monday:

Bound up—Props. Illinois, Concord; schrs. N. P. Goodell, Cortland, Eliza Logan.

Bound down—Props. Nile, Northern Light, Concord, Illinois, Rocket, Adriatic, Steadota.

SIGNS OF WEATHER.

Quite a number of vessels which passed down Saturday afternoon and evening, proceeded no farther than the mouth of the river, where at last accounts they were awaiting more favorable weather. Four or three propellers are reported there also. As the weather has somewhat moderated they doubtless are this have proceeded on to their destination. The brig *Northumberland*, and schooner *H. B. Steele* towed down yesterday; the schooner *Ironsides* departed up.—*Detroit Free Press, Tuesday morning.*

THE DISASTER TO THE MOHAWK.

A dispatch from Detroit announces that the prop. *Mohawk*, of the N. Y. Central Line, exploded her boiler at 4 o'clock yesterday morning, while crossing the St. Clair Flats, killing four persons, and badly shattering her upper works, and filled in eleven feet of water. The *Mohawk* was on her way to Buffalo, and had 20,000 bushels wheat from Chicago, and 1,400 bbls flour from Milwaukee. The flour was on deck, and is probably not injured, as she was drawing twelve feet of water, and must therefore have been aground when the explosion occurred. The *Mohawk* was one of the best steamers in the line. She sailed from this port on Saturday.

MILWAUKEE AND MISSISSIPPI RAILROAD.

The N. Y. *Tribune* of Friday last, says: At a meeting of the parties interested in the Milwaukee & Mississippi Railroad Company, held yesterday, they ratified the arrangement made with the city of Milwaukee, so that there is no obstacle to the re-organization. We learn that about three-fourths of the bonds of all descriptions have been already surrendered.

NEW YORK CENTRAL RAILROAD.

It is stated that the October earnings of this road will foot up rather less than September—say about $840,000. The first part of the month indicated that the aggregate receipts would reach at least $1,000,000, or more than any single month since 1856, but the latter part of October did not realize the anticipations based upon the operations of the first half. The falling off is attributed to bad weather.

NEW YORK & ERIE RAILROAD.

The New York *Tribune* says it is the intention of the managers of the Erie Road to postpone the sale of the road under the foreclosure proceedings, and which was to have been made on the 20th of November, until after January. The reason given for the postponement is the continued non-payment of interest upon the fourth mortgage bonds, by which the principal becomes due. *So long as this interest is unpaid*, the new corporation could be annoyed by suits under the fourth mortgage, and it is thought better to retain the concern in the hands of the Receiver until January or February, when it is believed that all the back interest will be paid, and the new corporation commence its existence without any floating debt.

GREAT WESTERN RAILWAY.

The Hamilton (C. W.) *Spectator* remarks, in relation to the grain trade of the Great Western Railway:

The magnitude of this trade can scarcely be appreciated except by a visit to the Great Western Railroad Company's wharf and elevator. In three days last week no less than nineteen vessels cleared, with 190,000 bus of grain. At the same time 130,000 bus were stored in the elevator, awaiting shipment, and a large quantity was lying in the cars. Ship-owners must be reaping a rich harvest this fall, the quantities of grain on the move being immensely in excess of previous years, while at the same time freights are high.
